STEP 1 : CLEANSING

activator Pre-treatment Gel

Rinse the face with water. Apply the product gently and massage for 1-2 minutes. Remove with a soft damp cloth or rinse gently with water. Your skin is ready for the treatment. Non greasy. Alcohol-free. Avoid in sensitive, reactive skin and eye contour.

STEP 2 : PROTECTION

protective petroleum jelly

Apply protective petroleum jelly around sensitive areas - periocular area, lips, nasal mucosa.

STEP 3 : NANOROLLER

nanoroller

Gently apply the nanoroller all over the treatment area with multiple passes, until the treatment area becomes pinkish / reddish. Use pressure if necessary. If irritation occurs, stop the procedure immediately and apply **aloe gel**.

STEP 4 : NANOAMPOULE

nanoampoule

Apply the nanoampoule & leave it for 2 - 3 minutes. Apply a second coat on the focused area if needed.

If irritation occurs, rinse off immediately with plenty of cold water.

Note: Physicians using their knowledge may select **nanoampoule** depending on skin condition.

STEP 5 : NANOMESO

nanomeso

Apply the single dose of **nanomeso** solution and gently massage till penetration. Gently massage till total absorption. Do not neutralize.

If irritation occurs, rinse off immediately with plenty of cold water.

STEP 6 : REPEAT STEPS 3, 4 & 5

repeat

Repeat step 3, 4 & 5, 2 to 3 times

Note: Do not neutralize.

STEP 7 : NANOSERUM (post-treatment Care)

nanoserum

Apply gently a thick layer of **nanoserum** on the treatment area.

Personal Care (prescription) : Physician may prescribe **Leaderma** personal care products for continuing the treatments at home.
